

Martha Town Workshop Participants
Sat & Sun, April 12 & 13, 2025

Name

Email address

Loom (# harnesses, table/floor, make & model, width of weaving

.....

.....

Level of weaver's experience

.....

Appropriate warp and weft yarns can be 8/2 or 10/2 cotton, rayon, tencel, wool or a blend of these. Solid colors will show the patterns best, but a painted or dyed warp can be used for some or all of the warp. Email consultation with Martha (mtown@frontiernet.net) is welcomed as students make warp choices.

Please report this info to Penny before the end of February so that Martha can prepare our individual instructions and drafts.
